Your personal invitation

FROM THE VIESELMAYER FAMILY OF VISION ANGUS

AUSTIN, TINA, BRENT & ALEX VIESELMAYER (AS PICTURED)

Welcome to our 20th Anniversary Bull & Heifer Sale! We are honored you are reading this and considering our program and genetics.

Way back when we had our first sales inside a tent at Maywood, NE we had the slogan "Emphasis Beyond The Gate." At that time, I thought we would really focus on carcass qualities. We did for a few years, but in the process we learned that our customers needed not just emphasis on carcass value but many other traits that contribute to the success of a commercial cow herd. I could list them but the bottom line is that a balanced approach to breeding cattle is the most sensible route to building a successful cow herd. If you read Harlan Hughes articles in Beef Magazine, you will learn that cow longevity is the most important economic trait to commercial cattlemen.

Now depending upon how you market your calves, there is certainly a place to focus on end value. Our sale offers bulls that can fit most any environment and definitely any calf or beef marketing plan. Most of these traits can be explained by the EPDs of the animal. What you don't see is the labor and thought placed

on building a cow herd that is fault free and functional.

Tina created our current slogan "See The Quality . . . Experience The Value" a few years ago. Her thought was that our bulls have the "good looks" and desirable EPDs that make them "Quality" cattle. We also have the intrinsic value that you should experience based on our hard work at home, plus how we work around the cattle. Thereby creating an animal that has the ability to help your operation in ways not documented from good dispositions to quality udders on females. So when we say "See The Quality . . . Experience The Value" you can be assured that our cattle will do their best to work for the whole of your operation! That we guarantee! If not, we will fix it.

We want to visit with you about the genetics we have to offer in this sale and the optimism we have in what they can do for you. We look forward to visiting with you and seeing you Monday, March 5!

Sincerely,

Brent Vieselmeier
Vision Angus

Vision *Angus* 20TH ANNUAL SALE **MARCH 5, 2018**

See the Quality. Experience the Value.

Our cows represent our balanced approach to breeding profitable, sustainable genetics. Our vision is to produce moderate birth cattle with three-dimensional mass, early rapid growth, a practical mature size and a quiet disposition.

You're buying more than just a bull or heifer. Our product sells with genomically enhanced EPDs and parent verified genetics providing you with more reliability and predictability.

We're a family business that sincerely appreciates you! At the sale, we offer Repeat Buyer, Volume and Trucking Discounts. After the sale, we can personally assist you in adding value to your calf crop.

Your satisfaction is guaranteed! We stand behind our product 100% with an unconditional sight-unseen purchase and first breeding season guarantees. Our females are guaranteed too.

Our gentle, problem-free cattle come highly recommended! We all appreciate employees that come to work with a positive attitude, are hard working and easy to get along with. Why should your livestock purchase be any different!

20TH ANNUAL SALE MONDAY, MARCH 5, 2018

Videos

All lot videos were taken by Melissa Grimmel Schaake with Melissa Photography. View the videos at www.DVAuction.com or access the link from our website at www.visionangus.com.

Sale Ring

All lots will sell through the Sale Ring for the buyers' convenience. DVAuction will also display the individual lot video as the cattle are selling.

Bulls Are Properly Developed For Your Benefit!

Bull nutrition and development has been conducted with the assistance from the professionals at Purina and Northeast Feed Inc. Our nutrition and herd health have been designed to ensure the longevity of the bulls. The disposition of the bulls reflects the way they have been developed.

Special Thanks to our Genetic Partners

These relationships have assisted us in offering a broader genetic selection to meet the needs of your programs. We'd like to personally thank our genetic partners for their confidence in our program and ability to market their genetics to you – with the same Vision Angus guarantee!

Fertility Exam And Herd Health

Breeding soundness evaluations and heifer pelvic measurements were performed by Dr. Jeffrey Tharp, Holyoke Veterinary Service at Holyoke, CO 970-854-3800. Bulls are guaranteed breeders and sell with an individual fertility exam certificate. They have all been semen checked prior to the sale. All lots have been vaccinated for Rednose, PI3, BVD, 7-way, Blackleg, BRSV and Haemophilus and have been poured and injected with Decctomax. Heifers have been vaccinated with Bovi-Shield Gold FP5 VL5. All lots tested negative for PI BVD and are AM, NH, CA and M1 free by test or pedigree.

Performance, Ultrasound And Fertility Data

EPDs printed in this catalog are as of February 2, 2018. EPD adjustments based upon submission of yearling weights, ultrasound data and scrotal measurements will be reflected on an updated Supplement Sheet. A Supplement Sheet will provide updated EPDs, ultrasound data, scrotal and heifer pelvic area. If you would like information prior to the sale, please give us a call or go to www.visionangus.com or www.facebook.com/visionangus or Brent Vieselmeyer for updates. All lots with the i50K logo have been parent verified and sell with genomically enhanced EPDs.

Unconditional Sight-Unseen Purchase Guarantee

Buyers unable to attend the sale may call and give their bids to Brent, Tina, Austin or any of the sale day staff. We guarantee complete honesty and integrity in how your bids will be handled. We also guarantee complete satisfaction for bulls or heifers purchased in this manner. You don't like the bull or heifer upon possession – you don't own him/her! It's That Simple!

Unconditional First Breeding Season Guarantee

Bulls are guaranteed for 90 days from the first turnout against breeding injury. Credit for the amount of purchase price minus \$1,750 will be applied toward the purchase of another bull in next year's sale if a replacement bull is not available. Buyer should notify Vision Angus as soon as possible should injury occur and prior to the injured bull being sold for salvage. We ask that all claims for credit be made known prior to September 1, 2018. This is not a mortality insurance policy nor does it cover mismanagement or neglect. Our heifers also sell with a first season breeding guarantee.

Repeat Buyer Discount

We appreciate the loyalty of our repeat buyers and offer the following

discounts on your purchases: The discount increases 1% for each consecutive year of purchase with a maximum of 5% discount. 2nd Consecutive Year of Purchase: 2% Discount | 3rd Consecutive Year of Purchase: 3% Discount | 4th Consecutive Year of Purchase: 4% Discount | 5th or more Consecutive Years of Purchase: 5% Discount.

Volume Discount

Purchase 3 or more bulls and enjoy a 5% discount on purchases!

Trucking Discount

Receive \$100 off each bull taken home sale day!

Free Delivery

Free delivery on all bull purchases in Nebraska and surrounding states. Delivery to a central location will apply to all other states. We would prefer that all heifers are taken home sale day or Tuesday, March 6th.

Free Wintering & Feed

We'll winter your bull(s) free until delivered. Visit with Brent, Tina or Austin after the sale if you have special requests regarding your bull delivery.

Top Dollar Angus Seedstock Partner

We're excited to be a Seedstock Partner for Top Dollar Angus to assist you in adding value to your calf crop! Our Top Dollar Angus qualified sires are identified with the logo. Their progeny will qualify as high-end genetic feeder cattle giving you the opportunity to capture market premiums that ranged from \$30 to \$70 per head above the average

market. Top Dollar Angus contacts more than 200 feedyards and order buyers to help drive demand and bring a higher return on your investment in the Top Dollar Angus qualified genetics.

Inspection Of The Cattle

Cattle may be viewed at the ranch located 1 mile north of Amherst, CO on County Road 53 OR at the Lincoln County Fairgrounds, North Platte, NE beginning Saturday afternoon March 3rd.

Terms And Conditions & Announcements

Bulls and heifers sell under the standard terms and conditions of the American Angus Association. Announcements made sale day take precedence over printed material in this catalog.

Retained Interest

Vision Angus will retain 1/3 semen revenue sharing interest in all of the bulls in this sale. The buyer has full possession and salvage value of the bull at the end of his useful life. All announcements made from the auction block sale day take precedence over printed information in the catalog.

All EPDs Are As Of February 2, 2018

A supplement sheet with the most current EPDs and information will be available prior to sale day.

AMERICAN ANGUS ASSOCIATION SELECTION TOOLS

We're committed to "Driving the science of better breeding" by providing you with the American Angus Association selection tools but we're doing so with more reliability and predictability through genomically enhanced EPDs.

Calving Ease Direct (CED)

is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW)

expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW)

expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. For example, you can expect progeny from a sire with a 60 WW EPD to weigh 20 lbs heavier on average at weaning than progeny from a sire with a 40 WW EPD.

Yearling Weight EPD (YW)

expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC)

expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docility (DOC)

expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

Heifer Pregnancy (HP)

is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Maternal Milk EPD (Milk)

is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters as compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Carcass Weight EPD (CW)

expressed in pounds, is a predictor of the difference in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb)

expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE)

expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Cow Energy Value (\$EN)

expressed in dollar savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

Weaned Calf Value (\$W)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Grid Value (\$G)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

AMERICAN BREED AVERAGE FOR NON-PARENT BULLS:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$EN	\$W	\$F	\$G	\$B
6	1.4	50	89	24	.73	15	10.4	36	.53	.48	-4.61	46.40	43.57	32.65	111.62

AMERICAN BREED AVERAGE FOR NON-PARENT COWS:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$EN	\$W	\$F	\$G	\$B
6	1.4	50	87	24	.69	14	10.2	36	.58	.50	-4.35	44.85	41.73	33.45	111.21

ANGUS BREED AVERAGE FOR CURRENT SIRES:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$EN	\$W	\$F	\$G	\$B
6	1.3	50	88	24	.73	13	10.1	34	.49	.44	-3.39	46.71	44.54	30.76	108.21

All lots with the above designation offer you
TWO IMPORTANT ADVANTAGES:

#1

They have been parent verified to ensure pedigree accuracy. You can place 100% confidence that the genetics you're purchasing are accurately represented.

#2

Genomic test results have already been factored into their individual EPDs providing you with higher accuracy EPDs that are the equivalent of that individual already having produced and recorded 8-33 calves depending on the trait measured. For commercial and seedstock producers that's valuable insight for more accurate selection, easier identification of genetic outliers and more reliability and predictability for genetic progress.

The following table provides you the progeny equivalent for some of the traits measured through genomic testing resulting in higher accuracy EPDs.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct (CED)	28	Milk	33
Birth Weight (BW)	21	Calving Ease Maternal (CEM)	18
Weaning Weight (WW)	26	Carcass Weight (CW)	9
Yearling Weight (YW)	21	Carcass Marbling (MARB)	9
Scrotal Circumference (SC)	13	Carcass Ribeye (REA)	12

Top Dollar Angus Feeder Calf Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25 percent of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its branding in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25 percent of the breed based on documented historical sire use. DNA evaluation conducted by Zoetis or GeneSeek is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

SEEDSTOCK PARTNER:

Vision
Angus

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

- This is the first time we have named a bull before he sold... Overdrive is that special! We believe Overdrive rivals Unanimous as a "Quality" breeding bull.
- After Lot 1 hit the ground at 58 lbs, he put it in "Overdrive" and never looked back earning a 78 BR, Adj. WW 881 lbs, 108 WR, Adj. YW 1,463 lbs and 111 YR as his dam's first calf.
- Overdrive represents 7 Generations of Predictable & Proven Calving-Ease Genetics – without sacrificing performance, natural thickness, volume and structural integrity!
- His Pathfinder grandam records an impressive progeny record with a BR 6/96, WR 6/103, YR 5/106, IMF 4/103, RE 4/105 and Fat 4/110 with a 366 day calving interval.
- The 6 maternal dams behind Overdrive record progeny birth ratios all less than 100.
- Among all non-parent bulls in the Angus Association registry only 9 can match the EPD combination that Overdrive has for CED, BW, WW, YW, Milk, RE, \$W and \$B.
- Of the 1,033 Ten Speed, non-parent sons registered with the Angus Association – Lot 1 ranks 4th CED, 3rd BW, 73rd HP, 2nd CEM, 50th Milk and 51st \$W.
- EPDs: 2% CED, 3% BW, 20% WW, 10% YW, 25% SC, 20% HP, 1% CEM, 10% Milk, 20% CW, 15% RE, 10% \$W, 10% \$F and 15% \$B.
- i50K: 4 CED, 9 BW, 27 WW, 27 YW, 25 SC, 42 HP, 8 CEM, 22 Milk, 38 CW and 13 RE.

ORIGen

Overdrive was Supreme Champion of the 2018 NWSS Cattlemen's Choice Bull Exhibition. He receives 1,000 units of semen collected, a stud contract and an advertising campaign by ORIGen at no cost to the owners.

- Moderate, functional beef bull with the genetic predisposition for cow efficiency, increased ribeye and \$Weaning value.
- Recommended for cows.
- His Chisum dam records a BR 2/88, IMF 1/115 and RE 1/108.
- EPDs: 10% DOC, 10% CEM, 25% \$EN, 1% RE and 25% \$W. i50K: 19 DOC, 13 CEM, 36 CW and 7 RE.

VISION UNANIMOUS 1418

DOB: 1/22/2011 | TATTOO: 1418 | REG. 16992096

- Unanimous has generated much excitement in the Angus breed and continues to be a major contributor to the future of the beef cattle industry.
- Unanimous's WW and YW EPDs are a testament to the impressive three-dimensional pounds his progeny display with a practical mature size.
- Unanimous stamps his daughters with an impressive angular, full-bodied, brood cow look and tremendous structure that get cattlemen excited.
- Unanimous's Pathfinder dam - Vision Edella 665 - is extremely productive with impeccable phenotype and udder quality with longevity that cattlemen seek.
- Unanimous ranks in the Top 3% WW, 4% YW, 35% SC, 30% DOC, 25% CW, 35% Marb, 30% \$W, 10% \$F and 25% \$B.
- He topped our 2012 sale at \$26,000 selling to Peak Dot Ranch, Wood Mountain, Saskatchewan, Canada.

- Don't overlook this one! He's one of the youngest in our offering but offers a very impressive EPD profile.
- Produced by one of our favorite cows blending longevity, fleshing ability and udder quality with solid EPDs. Four daughters have been retained and we're excited about what they can offer our program.
- Maternal brothers have sold for \$12,750 to Chuck & Jerry Ardisson, Oshkosh, NE and \$10,000 and \$6,250 to Devon Nelson, Twin Creek Ranch, Bassett, NE.
- EPDs: 25% WW, 15% YW, 35% SC, 30% CEM, 30% Milk, 10% CW, 35% Marb, 10% RE, 20% \$W, 10% \$F, 20% \$G and 3% \$B. i50K 22 CED, 31 YW, 38 Milk, 38 CW and 33 RE.

COLBURN PRIMO 5153

DOB: 1/3/2015 | TATTOO: 5153 | REG. 18217480

- Colburn Primo 5153 has been the most talked about show sire in the beef industry.
- Primo is the product of the two most dominant genetic lines to enter the show ring in the Angus breed. His dam is one of Style's most decorated daughters and his sire is the \$306,000 Dameron First Class.
- Primo stamps his progeny with added eye-appeal, overall balance, extra length and extension and structural correctness.
- Primo ranks in the Top 35% WW, 20% CEM and 20% \$EN.

- A little different twist with these two year olds, but they deliver the same mass, muscle, good looks and great disposition that you've come to expect from Vision Angus.
- Their donor dam, "Ali", has been a part of our family since Alex turned 9. She's been the cornerstone of our crossbred herd.
- Their maternal sisters are an impressive set of young females.
- Their sire, Silveiras S Sis GQ 2353, is the Style son that's extra deep bodied, super sound and very popular across all breeds due to his phenomenal phenotype.

SEE THE QUALITY...EXPERIENCE THE VALUE!

- Unanimous stamps his daughters with an impressive brood cow look that gets astute cattlemen excited and "Sara" is no exception. Mating Unanimous with 004 genetics represents a balance of traits with unlimited breeding potential. Sara's "004" dam is a good looking cow with a gorgeous, angular front end and fault free udder with plenty of milk. She boasts an impressive BR 4/96, WR 4/103 and RE 1/113 with a 370 day calving interval. Take advantage of this genetic opportunity balanced with phenotypic excellence!
- EPD's: 10% WW, 20% YW, 10% \$EN and 20% \$F. i50K: 34 WW, 33 YW, 36 CEM and 29 Fat.

- A stout, big-hipped female – just like her momma that's a long-bodied, big-hipped, stout, rugged cow that can thrive in any environment. Victoria is also just like many of our Unanimous daughters – moderate-framed and big-ribbed with the extra WW and YW EPDs that's a testament to her three-dimensional mass. A maternal brother sold to Brock Anderson, Gothenburg, NE for \$5,750.
- EPD's: 3% WW, 2% YW, 4% CW, 15% RE, 20% \$W, 2% \$F and 4% \$B. i50K: 13 WW, 24 YW, 32 SC, 9 CW, 5 RE and 7 Fat.
