Your personal invitation

FROM THE VIESELMAYER FAMILY OF VISION ANGUS

AUSTIN, TINA, BRENT & ALEX VIESELMAYER (AS PICTURED)

Welcome to the Vision Angus 21st Annual Bull and Heifer Sale. Our family appreciates your time and consideration. As the boys get older, I find myself writing on behalf of them as well since they are such an integral part of the business and program. I have yet to convince one of them to write for me but I can still warn them, "your time is coming!"

Just like our family has traveled down life's roads both literally and figuratively, our cow herd has traveled a long distance as well. Tina and I are both very satisfied with the cow herd we have built for our sakes as well as you as our customers. Disposition, fleshing ability, fertility and structural correctness come to mind as the big factors that we see and like. As I write this February 10, we have calved over 100 head. We have used the calf pullers once for a backwards calf, had to help only one calf nurse (on a crossbred recipient cow) and other than the usual inutero (something happened inside the cow) we have lost only two, both from twins (probably the second one born dead). As the cows line up at the feed bunk, we both like the uniformity we see, even with all ages in the group.

As you travel down that road with your cow herd and families, we encourage you to keep focus on what impacts you the most financially. Just like driving down a straight smooth road is much easier than Frontier County canyon roads or the washboard roads of the sandhills or in Chase

County, we encourage you to keep the path of a straight smooth path. There are so many things pulling us different directions and up and down, such as marketing programs, fads in the purebred sector, and bull of the month hysteria. Set your sights on what you need for profitability and stay the course.

In the recent American Angus Association survey, more than 3000 cattlemen ranked cow stayability as their number one priority by a wide margin among 14 traits. Harlan Hughes writes for Beef Magazine and he often points to the fact that cow longevity is the key to success in the cow-calf sector.

At Vision Angus, we have a cow herd and a sale offering with your success in mind. This is from listening to you and considering the economics for success. The important traits for cows to survive and be functional for many years is top of mind here. Please give us a call to discuss the offering and most importantly, tell us about your operation.

Sincerely,

Brent Vieselmeier

Vision Angus

Vision *Angus*

21ST ANNUAL SALE

MARCH 4, 2019

See the Quality. Experience the Value.

Our cows represent our balanced approach to breeding profitable, sustainable genetics. Our vision is to produce moderate birth cattle with three-dimensional mass, early rapid growth, a practical mature size and a quiet disposition.

You're buying more than just a bull or heifer. Our product sells with genomically enhanced EPDs and parent verified genetics providing you with more reliability and predictability.

We're a family business that sincerely appreciates you! At the sale, we offer Repeat Buyer, Volume and Trucking Discounts. After the sale, we can personally assist you in adding value to your calf crop.

Your satisfaction is guaranteed! We stand behind our product 100% with an unconditional sight-unseen purchase and first breeding season guarantees. Our females are guaranteed too.

Our gentle, problem-free cattle come highly recommended! We all appreciate employees that come to work with a positive attitude, are hard working and easy to get along with. Why should your livestock purchase be any different!

21ST ANNUAL SALE MONDAY, MARCH 4, 2019

Videos

All lot videos were taken by Melissa Grimmel Schaake with Melissa Photography. View the videos at www.DVAuction.com or access the link from our website at www.visionangus.com.

Sale Ring

All lots will sell through the Sale Ring for the buyers' convenience. DVAuction will also display the individual lot video as the cattle are selling.

Bulls Are Properly Developed For Your Benefit!

Bull nutrition and development has been conducted with the assistance from the professionals at Purina and Northeast Feed Inc. Our nutrition and herd health have been designed to ensure the longevity of the bulls. The disposition of the bulls reflects the way they have been developed.

Special Thanks to our Genetic Partners

These relationships have assisted us in offering a broader genetic selection to meet the needs of your programs. We'd like to personally thank our genetic partners for their confidence in our program and ability to market their genetics to you – with the same Vision Angus guarantee!

Fertility Exam And Herd Health

Breeding soundness evaluations and heifer pelvic measurements were performed by Dr. Jeffrey Tharp, Holyoke Veterinary Service at Holyoke, CO 970-854-3800. Bulls are guaranteed breeders and sell with an individual fertility exam certificate. They have all been semen checked prior to the sale. All lots have been vaccinated for IBR, PI3, BVD, 7-way, Blackleg, BRSV and Haemophilus and have been poured and injected with Decctomax. All bulls have been administered Vitamin E and wart vaccine. Heifers have been vaccinated with Bovi-Shield Gold FP5 VL5. All lots tested negative for PI BVD and are AM, NH, CA, DD and M1 free by test or pedigree.

Performance, Ultrasound And Fertility Data

EPDs printed in this catalog are as of February 1, 2019. EPD adjustments based upon submission of yearling weights and scrotal measurements will be reflected on an updated Supplement Sheet. A Supplement Sheet will provide updated EPDs, scrotal and heifer pelvic area. If you would like information prior to the sale, please give us a call or go to www.visionangus.com or www.facebook.com/visionangus or Brent Vieselmeyer for updates. All lots with the i50K logo have been parent verified and sell with genomically enhanced EPDs.

Unconditional Sight-Unseen Purchase Guarantee

Buyers unable to attend the sale may call and give their bids to Brent, Tina, Austin or any of the sale day staff. We guarantee complete honesty and integrity in how your bids will be handled. We also guarantee complete satisfaction for bulls or heifers purchased in this manner. You don't like the bull or heifer upon possession – you don't own him/her! It's That Simple!

Unconditional First Breeding Season Guarantee

Bulls are guaranteed for 90 days from the first turnout against breeding injury. Credit for the amount of purchase price minus \$1,750 will be applied toward the purchase of another bull in next year's sale if a replacement bull is not available. Buyer should notify Vision Angus as soon as possible should injury occur and prior to the injured bull being sold for salvage. We ask that all claims for credit be made known prior to September 1, 2019. This is not a mortality insurance policy nor does it cover mismanagement or neglect. Our heifers also sell with a first season breeding guarantee.

Repeat Buyer Discount

We appreciate the loyalty of our repeat buyers and offer the following discounts on your purchases: The discount increases 1% for each consecutive year of purchase with a maximum of 5% discount. 2nd Consecutive Year of Purchase: 2% Discount | 3rd Consecutive Year of Purchase: 3% Discount | 4th Consecutive Year of Purchase: 4% Discount | 5th or more Consecutive Years of Purchase: 5% Discount.

Volume Discount

Purchase 3 or more bulls and enjoy a 5% discount on purchases!

Trucking Discount

Receive \$100 off each bull taken home sale day!

Free Delivery

Free delivery on all bull purchases in Nebraska and surrounding states. Delivery to a central location will apply to all other states. We would prefer that all heifers are taken home sale day or Tuesday, March 5th.

Free Wintering & Feed

We'll winter your bull(s) free until delivered. Visit with Brent, Tina or Austin after the sale if you have special requests regarding your bull delivery.

Top Dollar Angus Seedstock Partner

We're excited to be a Seedstock Partner for Top Dollar Angus to assist you in adding value to your calf crop! Our Top Dollar Angus qualified sires are identified with the logo. Their progeny will qualify as high-end genetic feeder cattle giving you the opportunity to capture market premiums that ranged from \$30 to \$70 per head above the average market. Top Dollar Angus contacts more than 200 feedyards and order buyers to help drive demand and bring a higher return on your investment in the Top Dollar Angus qualified genetics.

Inspection Of The Cattle

Cattle may be viewed at the ranch located 1 mile north of Amherst, CO on County Road 53 OR at the Lincoln County Fairgrounds, North Platte, NE beginning Saturday afternoon March 2nd.

Terms And Conditions & Announcements

Bulls and heifers sell under the standard terms and conditions of the American Angus Association. Announcements made sale day take precedence over printed material in this catalog.

Retained Interest

Vision Angus will retain 1/3 semen revenue sharing interest in all of the bulls in this sale. The buyer has full possession and salvage value of the bull at the end of his useful life. All announcements made from the auction block sale day take precedence over printed information in the catalog.

All EPDs Are As Of February 1, 2019

A supplement sheet with the most current EPDs and information will be available prior to sale day.

AMERICAN ANGUS ASSOCIATION SELECTION TOOLS

We're committed to "Driving the science of better breeding" by providing you with the American Angus Association selection tools but we're doing so with more reliability and predictability through genomically enhanced EPDs.

Calving Ease Direct (CED)

is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW)

expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW)

expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. For example, you can expect progeny from a sire with a 60 WW EPD to weigh 20 lbs heavier on average at weaning than progeny from a sire with a 40 WW EPD.

Yearling Weight EPD (YW)

expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC)

expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docility (DOC)

expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

Heifer Pregnancy (HP)

is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Maternal Milk EPD (Milk)

is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters as compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Carcass Weight EPD (CW)

expressed in pounds, is a predictor of the difference in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb)

expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE)

expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Cow Energy Value (\$EN)

expressed in dollar savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

Weaned Calf Value (\$W)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Grid Value (\$G)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

AMERICAN BREED AVERAGE FOR NON-PARENT BULLS:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$EN	\$W	\$F	\$G	\$B
6	1.3	52	92	24	.74	16	10.8	38	.53	.52	-6.94	47.85	48.70	34.09	119.16

AMERICAN BREED AVERAGE FOR NON-PARENT COWS:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$EN	\$W	\$F	\$G	\$B
6	1.4	51	91	24	.70	15	10.5	38	.58	.54	-6.83	46.44	47.07	34.80	118.31

ANGUS BREED AVERAGE FOR CURRENT SIRES:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$EN	\$W	\$F	\$G	\$B
6	1.3	52	92	24	.74	15	10.4	36	.50	.47	-5.50	48.33	49.14	32.37	115.11

All lots with the above designation offer you
TWO IMPORTANT ADVANTAGES:

#1

They have been parent verified to ensure pedigree accuracy. You can place 100% confidence that the genetics you're purchasing are accurately represented.

#2

Genomic test results have already been factored into their individual EPDs providing you with higher accuracy EPDs that are the equivalent of that individual already having produced and recorded 8-33 calves depending on the trait measured. For commercial and seedstock producers that's valuable insight for more accurate selection, easier identification of genetic outliers and more reliability and predictability for genetic progress.

The following table provides you the progeny equivalent for some of the traits measured through genomic testing resulting in higher accuracy EPDs.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct (CED)	28	Milk	33
Birth Weight (BW)	21	Calving Ease Maternal (CEM)	18
Weaning Weight (WW)	26	Carcass Weight (CW)	9
Yearling Weight (YW)	21	Carcass Marbling (MARB)	9
Scrotal Circumference (SC)	13	Carcass Ribeye (REA)	12

Vision Angus - A Program Focused on Performance

BULLS

Welcome to the Annual Vision Angus Performance-Tested Bull Sale. This power-packed offering will feature some of the stoutest, highest performing bulls to sell this spring and backed by a program committed to their customer's success.

I recently had the opportunity to go through these bulls and see firsthand the overall stoutness and power they possess and have no doubt that these bulls will work in any program, purebred or commercial. Brent, Tina, and their family do a great job of developing the bulls to maximize their genetic potential to perform and do this in a manner where cattlemen will appreciate their foot quality and overall soundness. Lined up in this year's offering you will find sons of bulls bred in the Vision program as well as sons of leading AI sires. There are bulls selling that offer plenty of calving ease along with breed-impacting growth traits and carcass values. Leading this year's sale off will be a set of sons sired by Vision Imperial 6003 - These bulls excel for weaning and yearling growth and will no doubt be a favorite on sale day. The sons of Ellingson Chaps 4095 are as powerful of bulls as you will find anywhere this spring. They are packed full of red meat and are super big bodied and good in their structural design. Other leading sires represented will include sons of Ellingson Top Shelf 5050, SAV Renown 3439, SAV Ten Speed 3022, and other prominent breed-leaders.

In addition to the power-packed set of bulls selling, there will also be a fancy set of spring yearling heifers. These heifers are from the heart of the Vision program and have the look and eye appeal that all cattlemen can appreciate. They will be sired by the same leading AI sires as the bulls selling and will be highlighted with a daughter of the popular Select Sires AI sire, Baldridge Bronc who offers an extreme EPD profile from calving ease to yearling growth and \$ Indexes.

Feel free to contact me at (918) 510-3464 if you would like to discuss this offering. I will not be able to attend the sale in person, but would be more than happy to visit with anyone about how these genetics can positively impact your program. Mark your calendars now for the 21st Annual Vision Angus sale to be held on Monday, March 4, 2019 at the Lincoln County Fairgrounds in North Platte, Nebraska.

Sincerely,

Rance Long

www.rancelong.com

Vision Imperial 6003

DOB: 1/6/16 | TATTOO: 6003 | REG. 18653296

Unquestionably the most exciting young sire we have developed and used to date! With very limited natural service use after topping our 2017 sale at \$15,500, Imperial's first progeny have recorded impressive ratios of 99 BW, 106 WW, 104 YW, 98 IMF, 105 REA and 120 Fat further substantiating his curve-bending EPD profile! Imperial's dam and her full sister are identical with massive center body, feminine head and neck and perfect udders. He's our genetic masterpiece where everything is in balance. Owned with Scott Morris, Sunset Angus Farm, Balko, OK.

Vision Imperial 8001 represents the Vision Angus program and our approach to breeding cattle which balances selection traits important to our customers without chasing extremes. His pedigree has the maternal strength of our Evergreen cow family that is the backbone of our cow herd. Impressive performance, carcass improving genetics, outstanding phenotype and a great disposition in a moderate, three-dimensional package! 8001 boasts an impressive 99 birth ratio, 111 weaning ratio, 110 yearling ratio, 128 IMF ratio and 104 ribeye ratio as his dam's first calf. His grandam is a consistent producer whose four progeny have averaged 101 at weaning and 103 at yearling. His great grandam was our foundation Evergreen donor that anchored our most prolific cow family and recorded lifetime production ratios of weaning 7@103, yearling 5@103, IMF 17@103, ribeye 17@101 and fat 17@110.

This full brother to Vision Imperial 6003 is a top-notch herd bull candidate that will impress you on sale day! Genetically designed for a range and forage-based cow herd, this individual is the kind to generate phenomenal replacement heifers that one can build a cow herd around. His Unanimous dam is fertile, sound, feminine, perfect uddered and massive in her center body. She boasts impressive progeny ratios with BR 3/97, WR 3/107, YR 3/103, IMF 3/106, REA 3/101 and Fat 3/107. 8032 is a good-looking dude with a great attitude that's genetically destined for greatness. Exceptional phenotype runs strong in this family – take a look at his maternal brother sired by Pedigree that sells as Lot 9.

A double digit CED, calving-ease bull with added fertility, high maternal and increased marbling genetics. The "Honey Bear" cows are moderate in size, fertile and hard working. The Bear females are growing in number in our cow herd and earning their keep. Count on this "Bear Cub" to be easy to work with, easy-calving and to sire feeder calves that are stout and fancy with the bred-in ability to grade. 92 birth ratio and 117 IMF ratio.

Our Personal Commitment...

...IS TO ENSURE THAT YOU ARE SATISFIED WITH YOUR PURCHASE OF VISION ANGUS GENETICS AND THAT IT PROVES TO BE A POSITIVE AND PROFITABLE INVESTMENT.

SINCERELY,
 BRENT, TINA, AUSTIN & ALEX

SAV Pedigree 4834

DOB: 1/1/14 | TATTOO: 4834 | REG. 17921485

Pedigree uniquely combined genetic excellence with phenotype, performance, EPDs and cow family strength to command the top selling bid in the 2015 SAV sale. Pedigree progeny consistently offer a stunning and athletic look with the added length and size to deliver more pounds and frame. His legendary dam, SAV Blackcap May 4136, is the Angus breed's most influential genetic contributor generating \$9.5 million in progeny sales on 191 direct sons and daughters including Resource, Renown and Sensation.

8020 was definitely a favorite of the many university and junior college livestock judging teams that stopped by on their way to the contest at the National Western Stock Show. There's no doubt when you have the opportunity to study him, his data and the cow record behind him, he'll make your favorite list too! He delivers reliable calving-ease genetics, fortified with genomics, without sacrificing the performance, thickness and phenotype you want to see in your herd bulls. His dam has been a herd bull producing machine recording eight progeny with an average 99 birth ratio, 102 weaning ratio and 103 yearling ratio. 8020 earned an individual 95 birth ratio, 102 weaning ratio and 102 yearling ratio.

When your breeding program is centered around a balanced approach for trait selection (and all the stars line up) one can produce an individual like 8023 that is so flawless in his design and beyond compare for his unique combination of growth, disposition, maternal, carcass and end product value! You would need to travel many miles this spring to find a herd bull as impressive walking as 8023 that can rival his genomically-enhanced EPDs that rank in the Top 2% WW, 1% YW, 25% Doc, 30% Milk, 2% CW, 10% RE, 10% \$W, 1% \$F and 1% \$B. 116 weaning ratio, 112 yearling ratio and 118 ribeye ratio.

Without a doubt, 8023 is Austin's favorite bull in the sale! Austin can show him as a bred and owned bull this summer at his last National Junior Angus Show. This represents an opportunity to campaign this impressive herd bull candidate in front of many savvy cattlemen and seedstock breeders. Take the time to visit with Austin about this promotional opportunity.

Here's a high-performance Pedigree son backed by generations of brood cows that consistently produce progeny with heavier weights and added mature size. His Pathfinder dam is one of our favorite young cows earning a 109 weaning ratio and 105 yearling ratio on three progeny. His Pathfinder grandam is a stout structured, massive Rito 9969 daughter. 8045 records an individual 97 birth ratio, 105 weaning ratio and 105 yearling ratio.

Ellingson Chaps 4095

DOB: 3/1/14 | TATTOO: 4095 | REG. 17932714

The most valuable Resource son whose low birth yet high performance progeny with added thickness and dimension have distanced Chaps from the pack. Defying the laws of mother nature, Chaps is a high accuracy calving-ease sire who transmits his same massive, robust and muscular physique to his progeny. He is a sound structured, good footed bull whose progeny offer improved foot quality and design.

Elite bulls come from elite cows. The Upoar dam of 8012 is special – she's good looking, moderate, fertile and efficient to consistently rebreed on the first service. She records progeny ratios of 2@102 for weaning, 2@106 for yearling and 2@101 for ribeye. We will flush her this spring to propagate her genetics in our herd. Lot 11 is an eye catcher, but the more you study him the more you realize he has all the right pieces. He balances so well with a correct and smooth neck and shoulder, a big center body with a strong upper rib and powerful top. Recorded an individual 114 weaning ratio, 110 yearling ratio and 101 ribeye ratio.

The Silver cow family doesn't disappoint. That cow family has brought you another stout, good structured, range-oriented beef bull. His Milk and \$EN EPDs are designed for year-round, forage production systems.

SAV Renown 3439

DOB: 1/7/13 | TATTOO: 3439 | REG. 17633839

Renown was the result of the same proven and predictable mating that produced SAV Resource 1441. He stamps his progeny with phenotypic quality, structural balance, growth, muscle, performance and docility. His daughters are extra feminine and broody with abundant milk and high-quality udders.

A performance stand-out since birth that's very deserving of your consideration. His impressive performance figures compliment his design and structure making him a total-package herd sire candidate. The Renown cattle are solid producers in every way. Growth, fleshing ability, phenotype and good carcass merit. 8010 reads with a big ribeye, but balances that extra thickness with abundant IMF. His Royal Stockman dam has earned progeny ratios of weaning 3@100, yearling 2@106, IMF 2@102 and ribeye 2@112. Take note of his impressive ratios with a 98 birth, 105 weaning, 105 yearling, 108 IMF and 111 ribeye.

Fits the bill of a reliable heifer bull – genetically and phenotypically! Smooth built, sound made and functional. Recorded an individual 82 birth ratio and 100 weaning ratio.

SAV Sensation 5615

DOB: 1/6/15 | TATTOO: 5615 | REG. 18258149

The top selling bull of the 2016 SAV sale, Sensation is among the most popular and widely-used young bulls in the Angus breed. He delivers stylish, super-fronted progeny with added length, balance and superb docility. Backed by two of the greatest SAV maternal icons, Blackcap May 4136 and Madame Pride 0075, Sensation offers maternal power beyond compare.

An impressive individual to lead off this sire group and a front pasture kind of herd bull! He's a head turner that can deliver those fancy, market-topping feeder calves or a high-quality set of replacement heifers. His donor dam blends impeccable phenotype and class with massive performance. Angel's picture accurately portrays her phenotypic excellence, production merit and superb udder quality that quickly propelled her to our donor program. Maternal sisters in production are exceptional females that have captured the attention of all ranch visitors.

A sensational calving-ease prospect recommended for heifers! This time of year, it's hard to leave home so we try to study a lot of bulls on DVAuction. There have been many Sensation sons selling this year and 8204 is without a doubt the best one we've seen. He is so smooth and fancy in his front end then comes back to a big rib and top. The muscle shape is powerful over his rump and into his quarter. He's moderate, has a positive \$EN and will fit into any western environment. Great bulls come from the Ellie cow family. 92 birth ratio.

Be sure to find this one sale day as he's always been Brent's favorite of the fall bulls. Phenotypically, he's a model of what we at Vision Angus are striving to produce for commercial cattlemen. He delivers the traits we've come to expect from Unanimous – extra performance, dimension, length, fleshing ability, soundness and a great disposition! Under low-input fall herd management, 7076 earned an impressive 97 birth ratio, 102 weaning ratio and 106 yearling ratio with a 790 lb Adj. WW and the heaviest Adj. YW at 1,355 lbs. We'd like to keep him as a herd bull, but with several Unanimous daughters working in both our spring and fall herds you have the opportunity to make him yours Monday, March 4th!

Here's a calving-ease Unanimous son that has exceptional balance and stunning phenotype! His dam is picture perfect from her balance, to her feet to her udder – making each trip through the fall cows a rewarding experience. Unanimous daughters are also making exceptional brood cows and are definitely the pride and joy of our cow herd. 7072 can deliver a tremendous set of high quality, reputation-building replacement females. His dam records an impressive progeny record of birth 2@96, weaning 2@104 and yearling 2@103.

Here's a 'gentle giant.' A powerful, high performance bull that is so gentle natured and easy to work with. He offers an impressive combination of superior WW, YW, \$W, \$F and \$B EPDs to sire those market-topping feeder calves that will grow in value!

FFA has always had an instrumental role in our family and has equipped our sons, Austin and Alex, with many life skills. At Holyoke FFA Chapter's annual banquet, Alex was awarded Star Chapter Farmer and elected President. We wish him the best his senior year as he chases his FFA dreams and embarks on a new chapter of his life.

Bushs Easy Decision 98

DOB: 2/7/13 | TATTOO: 98 | REG. 17649083

Easy Decision offers a unique combination of growth, fertility, disposition, carcass merit and end-product value. His progeny exhibit early rapid growth, added muscle dimension and fleshing ability without excessive mature frame. Easy Decision is backed by four consecutive maternal Pathfinder dams.

A very predictable heifer bull that's super attractive, moderate, easy-keeping and high-marbling! Of course, we'd expect nothing less from his Emblazon bred dam that consistently delivers low birth, attractive cattle infused with marbling. She records progeny ratios of 4@92 for birth and 3@120 for IMF. 8102 posts a 79 birth ratio and 125 IMF ratio.

Ellingson Top Shelf 5050

DOB: 2/23/15 | TATTOO: 5050 | REG. 18181431

Top Shelf is a true double-digit calving-ease sire whose calves impress us at birth with a slender build and exceptional vigor. His Pathfinder dam is a moderate, broody Final Answer daughter with ideal foot and udder structure. His first daughters in production are exquisite – feminine, broody, attractive females with superb mothering ability and udder design.

Extra grow power here with added frame, exceptional length and an attractive look! If you background your calves, take advantage of the growth, gain-ability and muscle this Cartwright son offers! Take note of his breed leading EPDs for WW, YW, RE, \$W and \$F that are backed with genomic data. No need to second guess the pedigree on this one with Connealy Capitalist 028 being some of the most sought after genetics in the country.

REFERENCE SIRE**S A V Pattern 6926**

DOB: 1/23/16 | TATTOO: 6926 | REG. 18578992

Pattern is an impressive, athletic, functional and sound herd bull whose progeny exhibit nice calf shape with added performance, growth and increased marbling genetics. Pattern's dam is an impressive, powerful, high volume cow with tremendous thickness, three-dimensional mass and fleshing ability. We think his daughters will be his best attribute as they are the cowman's kind – attractive and growthy with a bold, maternal rib shape.

The Pathfinder dam of this Pattern son is one of the most fertile, prolific and maternal females in our herd. At 13 years of age, she continues to rebreed on the first service every year and has a near perfect udder that has maintained its structural integrity. She records an impressive progeny record of 11@99 for birth, 11@103 for weaning, 9@102 for yearling and 10@102 for IMF with a 366 day calving-interval. Without a doubt, 8039 is destined to be a great maternal-oriented bull.

Five Star was purchased from a really good cow outfit – the Mill Brae Ranch in Kansas. He topped their sale that year because of his stoutness and docility. The genomics really clicked to provide a fabulous set of EPD's, yet his pedigree and cow family provide cow function and longevity. We like his calves extremely well and are excited to see them grow and develop. Five Star will bring outcross genetics to our program and enhanced marbling and carcass merit without sacrificing cow stayability.

Our \$15,500 top selling bull in the 2017 sale selected by Scott Morris, Sunset Angus Farms, Balko, OK and one of the most exciting young sires we have developed and used to date. His first progeny recorded impressive ratios of 99 BW, 106 WW, 104 YW, 98 IMF, 105 RE and 120 Fat further substantiating his curve-bending EPD profile! Emperial delivers the stoutness, rib shape and docility we want. His calves come easy, with lots of vigor and soon become stout and fancy. Emperial's dam and her full sister are identical with massive center body, feminine head and neck and perfect udders. He's our genetic masterpiece where everything is in balance. Emperial progeny will also highlight our 2020 sale.

The \$20,000 top selling bull of our 2018 sale selected by Frank Cattle Co., Chuck & Jerry Ardissona, Don Dugan and Mike Kehler. We believe Overdrive has the potential to rival Unanimous as a "Quality" breeding bull. Overdrive represents 7 generations of predictable & proven calving-ease genetics without sacrificing performance, natural thickness, volume and structural integrity! His first calves on the ground are coming early and light with exceptional vigor. They're giving us an impressive look at such a young age. Overdrive will see a tremendous amount of use this spring! Featured in ORIgen.
