Your personal invitation FROM THE VIESELMAYER FAMILY OF VISION ANGUS AUSTIN, TINA, BRENT & ALEX VIESELMAYER (AS PICTURED)

*W*elcome to the Vision Angus 22nd annual bull and heifer sale. Our family appreciates your time and consideration.

In the last several years I feel like I am writing on behalf of all four of us in our family. I also find myself using analogies from our family to our cow herd. Decisions, mistakes, successes, experiences and adventures can certainly come from stories derived from a family growing over the years. A cow herd can have those same events, from successes to failures and joy to sorrow, especially for most of us that have committed our lives to building, improving and maintaining that herd.

Over the years, we always tried to select the 'appropriate' people for our boys to be around and learn from. This was especially true when it came to showing cattle. We wanted people that would have a good influence on them and would also teach them. Tina and I feel like we did a pretty good job, we certainly have been blessed with two intelligent, hard working and outstanding young men. Now as they have 'left the nest' we find that they use the lessons instilled in them from their youth.

So, here is the analogy to the cow herd...Surround yourself with the folks that can help you learn and grow. Ask questions from the people that have experience, knowledge and wisdom. The right seed stock supplier can fit this paradigm. Those are the ones who want to be your partner and friend. Most of the time, the folks selling you something are not necessarily those

that fit this mold. Beware of folks trying to sell you cattle from hyped up pedigrees, from some rare bull with limited semen, or cattle with extreme EPDs where all they talk about is how those animals are in the top 1 or 2 percent of the breed or even from a ranch that has all the fancy pictures of horses and lariats.

Find the seed stock supplier that will ask questions first, listen to your objectives and provide you with a list of cattle in their sale that will and will not fit your operation. Find the seedstock supplier that has grown in the beef industry, raised their kids in the industry and is connected to the industry. Find the seedstock supplier that makes breeding and management decisions based on what you, as commercial cattlemen, need to be successful. Ask questions and learn about that seedstock supplier, especially before you buy.

Our family and our business have your success in mind. This is from listening to you and considering the economics for success. Please give us a call to discuss the cattle we are offering Monday, March 2nd and more importantly, tell us about your operation.

Sincerely,

Brent Vieselmeyer

Vision Angus

Vision *Angus*

22ND ANNUAL SALE

MARCH 2, 2020

See the Quality. Experience the Value.

Our cows represent our balanced approach to breeding profitable, sustainable genetics. Our vision is to produce moderate birth cattle with three-dimensional mass, early rapid growth, a practical mature size and a quiet disposition.

You're buying more than just a bull or heifer. Our product sells with genomically enhanced EPDs and parent verified genetics providing you with more reliability and predictability.

Mill Brae Five Star 5045 – Featuring his first sons among a solid set of bulls sired by Basin Payweight Plus, Ellingson Chaps, K C F Bennett Fortress, KR Casino, LD Capitalist 316, Musgrave 316 Stunner, Vision Imperial 6003 and Vision Overdrive 7001.

Your satisfaction is guaranteed! We stand behind our product 100% with an unconditional sight-unseen purchase and first breeding season guarantees. Our females are guaranteed too.

We're a family business that sincerely appreciates you! At the sale, we offer Repeat Buyer, Volume and Trucking Discounts. After the sale, we can personally assist you in adding value to your calf crop.

Our gentle, problem-free cattle come highly recommended! We all appreciate employees that come to work with a positive attitude, are hard working and easy to get along with. Why should your livestock purchase be any different!

Videos

All lot videos were taken by Melissa Grimmel Schaake with Melissa Photography. View the videos at www.DVAuction.com or access the link from our website at www.visionangus.com.

Sale Ring

All lots will sell through the Sale Ring for the buyers' convenience. DVAuction will also display the individual lot video as the cattle are selling.

Bulls Are Properly Developed For Your Benefit!

Bull nutrition and development has been conducted with the assistance from the professionals at Purina and Northeast Feed Inc. Our nutrition and herd health have been designed to ensure the longevity of the bulls. The disposition of the bulls reflects the way they have been developed.

Special Thanks to our Genetic Partner

This relationship has assisted us in offering a broader genetic selection to meet the needs of your programs. We'd like to personally thank our genetic partner for their confidence in our program and ability to market their genetics to you – with the same Vision Angus guarantee!

AJ Angus, LLC | Greg & Carla Jurgenson, Ryan Alberts | Atlanta, IL

Fertility Exam And Herd Health

Breeding soundness evaluations and heifer pelvic measurements were performed by Dr. Jeffrey Tharp, Holyoke Veterinary Service at Holyoke, CO 970-854-3800. Bulls are guaranteed breeders and sell with an individual fertility exam certificate. They have all been semen checked prior to the sale. All lots have been vaccinated for IBR, PI3, BVD, 7-way, Blackleg, BRSV and Haemophilus and have been poured and injected with Decctomax. All bulls have been administered Vitamin E and wart vaccine. Heifers have been vaccinated with Bovi-Shield Gold FP5 VL5. All lots tested negative for PI BVD and are AM, NH, CA, DD and M1 free by test or pedigree.

Performance, Ultrasound And Fertility Data

EPDs printed in this catalog are as of February 7, 2020. EPD adjustments based upon submission of yearling weights and scrotal measurements will be reflected on an updated Supplement Sheet. A Supplement Sheet will provide updated EPDs, scrotal and heifer pelvic area. If you would like information prior to the sale, please give us a call or go to www.visionangus.com or www.facebook.com/visionangus or Brent Vieselmeyer for updates. All lots with the HD50K logo have been parent verified and sell with genomically enhanced EPDs.

Unconditional Sight-Unseen Purchase Guarantee

Buyers unable to attend the sale may call and give their bids to Brent, Tina, Austin or any of the sale day staff. We guarantee complete honesty and integrity in how your bids will be handled. We also guarantee complete satisfaction for bulls or heifers purchased in this manner. You don't like the bull or heifer upon possession – you don't own him/her! It's That Simple!

Unconditional First Breeding Season Guarantee

Bulls are guaranteed for 90 days from the first turnout against breeding injury. Credit for the amount of purchase price minus \$1,750 will be applied toward the purchase of another bull in next year's sale if a replacement bull is not available. Buyer should notify Vision Angus as soon as possible should injury occur and prior to the injured bull being sold for salvage. We ask that all claims for credit be made known prior to September 1, 2020. This is not a mortality insurance policy nor does it cover mismanagement or neglect. Our heifers also sell with a first season breeding guarantee.

Repeat Buyer Discount

We appreciate the loyalty of our repeat buyers and offer the following discounts on your purchases: The discount increases 1% for each consecutive year of purchase with a maximum of 5% discount. 2nd Consecutive Year of Purchase: 2% Discount | 3rd Consecutive Year of Purchase: 3% Discount | 4th Consecutive Year of Purchase: 4% Discount | 5th or more Consecutive Years of Purchase: 5% Discount.

Volume Discount

Purchase 3 or more bulls and enjoy a 5% discount on purchases!

Trucking Discount

Receive \$100 off each bull taken home sale day!

Free Delivery

Free delivery on all bull purchases in Nebraska and surrounding states. Delivery to a central location will apply to all other states. We would prefer that all heifers are taken home sale day or Tuesday, March 3rd.

Free Wintering & Feed

We'll winter your bull(s) free until delivered. Visit with Brent, Tina or Austin after the sale if you have special requests regarding your bull delivery.

Top Dollar Angus Seedstock Partner

We're excited to be a Seedstock Partner for Top Dollar Angus to assist you in adding value to your calf crop! Our Top Dollar Angus qualified sires are identified with the logo. Their progeny will qualify as high-end genetic feeder cattle giving you the opportunity to capture market premiums that ranged from \$30 to \$70 per head above the average market. Top Dollar Angus contacts more than 200 feedyards and order buyers to help drive demand and bring a higher return on your investment in the Top Dollar Angus qualified genetics.

Inspection Of The Cattle

Cattle may be viewed at the ranch located 1 mile north of Amherst, CO on County Road 53 OR at the Lincoln County Fairgrounds, North Platte, NE beginning Saturday afternoon February 29th.

Terms And Conditions & Announcements

Bulls and heifers sell under the standard terms and conditions of the American Angus Association. Announcements made sale day take precedence over printed material in this catalog.

Retained Interest

Vision Angus will retain 1/3 semen revenue sharing interest in all of the bulls in this sale. The buyer has full possession and salvage value of the bull at the end of his useful life. All announcements made from the auction block sale day take precedence over printed information in the catalog.

All EPDs Are As Of Friday, February 7, 2020

A supplement sheet with the most current EPDs and information will be available prior to sale day.

AMERICAN ANGUS ASSOCIATION SELECTION TOOLS

We're committed to "Driving the science of better breeding" by providing you with the American Angus Association selection tools but we're doing so with more reliability and predictability through genomically enhanced EPDs.

Calving Ease Direct (CED)

is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW)

expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW)

expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. For example, you can expect progeny from a sire with a 60 WW EPD to weigh 20 lbs heavier on average than progeny from a sire with a 40 WW EPD.

Yearling Weight EPD (YW)

expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC)

expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Dolcity (DOC)

expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable dolcity. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

Heifer Pregnancy (HP)

is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Maternal Milk EPD (Milk)

is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters as compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Carcass Weight EPD (CW)

expressed in pounds, is a predictor of the difference in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb)

expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE)

expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Maternal Weaned Calf Value (\$M)

an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Grid Value (\$G)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B)

an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

AMERICAN BREED AVERAGE FOR NON-PARENT BULLS:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$EN	\$W	\$F	\$G	\$B
6	1.3	54	96	25	.76	16	11.1	40	.54	.55	56	54	83	46	129

AMERICAN BREED AVERAGE FOR NON-PARENT COWS:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$M	\$W	\$F	\$G	\$B
6	1.3	53	95	25	.72	16	10.9	40	.58	.56	56	53	83	47	130

ANGUS BREED AVERAGE FOR CURRENT SIRES:

CED	BW	WW	YW	Milk	SC	DOC	HP	CW	Marb	RE	\$M	\$W	\$F	\$G	\$B
6	1.2	54	96	25	.76	15	10.7	38	.50	.50	52	54	82	44	126

All lots with the above designation offer you
TWO IMPORTANT ADVANTAGES:

#1

They have been parent verified to ensure pedigree accuracy. You can place 100% confidence that the genetics you're purchasing are accurately represented.

#2

Genomic test results have already been factored into their individual EPDs providing you with higher accuracy EPDs that are the equivalent of that individual already having produced and recorded 8-33 calves depending on the trait measured. For commercial and seedstock producers that's valuable insight for more accurate selection, easier identification of genetic outliers and more reliability and predictability for genetic progress.

The following table provides you the progeny equivalent for some of the traits measured through genomic testing resulting in higher accuracy EPDs.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct (CED)	28	Milk	33
Birth Weight (BW)	21	Calving Ease Maternal (CEM)	18
Weaning Weight (WW)	26	Carcass Weight (CW)	9
Yearling Weight (YW)	21	Carcass Marbling (MARB)	9
Scrotal Circumference (SC)	13	Carcass Ribeye (REA)	12

Balance is the Key to Success

Most of us are developing our own replacement females and selling feeder cattle after we feed them our home raised forages.

We are asking the Angus bulls we buy to "do it all". With proper genetic selection, they can do it all, from calving-ease predictability to sale day pounds to carcass merit to maternal function.

Beware of marketing schemes that want you to select bulls that are extreme in their EPD's, from a rare "limited semen" sire or have extreme phenotype. Breeding for balance and predictability is the most difficult task that seedstock breeders can achieve yet they are the most economically important to commercial cattlemen.

Keep your herd in balance with Vision Angus genetics! Tipping the scale in one direction will sacrifice traits in the other direction. Our approach to breeding cattle will always be to balance selection traits important to our customers without chasing extremes or fads. Our success and our customers' success hinges on the balance of real-world production traits.

Basin Payweight Plus 6048

DOB: 2/25/16 | TATTOO: 6048 | REG. 18511911

Payweight Plus was our selection of the Payweight 1682 sons due to his balanced combination of phenotype, performance and EPDs that best serve the needs of all beef industry segments and our customers. He's sound structured and moderate framed with exceptional depth and softness of rib and length of body. Payweight Plus immediately strikes you as a cow maker sire and his Connealy Consensus 7229 dam only reinforces his strong maternal heritage.

Lot 2

Unmistakable, elite herd bull presence in these three flush brothers. You decide which one is your favorite and best suited to the needs of your cow herd and program. You'll never regret adding bulls of this caliber to your breeding program. They're an investment that will pay dividends for years to come. You can be assured that their dam, Vision Evergreen 610, is the kind of cow power and genetics you want behind your next herd sire! 610 is our most valued female that captivates the attention of all ranch visitors. Her dam and grandam are equally impressive to all that have seen them and highly productive making our short list of Vision Angus favorites.

It's rare to witness flush mates with so much consistency in phenotype, performance and genomics!

Lot 1 boasts individual ratios of birth 98, weaning 114, yearling 114, IMF 113, ribeye 105 and fat 108. His EPD profile ranks in the Top 30% CED, 1% WW, 1% YW, 10% SC, 35% HP, 10% CW, 25% \$Maternal, 1% \$Weaning, 15% \$Feedlot and 35% \$Beef.

Lot 2 is as equally impressive recording ratios of birth 97, weaning 109, yearling 108, IMF 125, RE 100 and fat 150. His EPD profile ranks in the Top 10% CED, 20% BW, 4% WW, 4% YW, 15% SC, 15% CEM, 15% Milk, 15% CW, 20% \$Maternal and 3% \$Weaning.

Lot 3, the bona-fide heifer bull of the trio, held his own recording individual ratios of birth 97, weaning 106, yearling 103, IMF 123, ribeye 88 and fat 96. His EPD profile ranks in the Top 10% CED, 20% BW, 2% WW, 3% YW, 2% SC, 15% CEM, 20% Milk, 30% CW and 1% \$Weaning.

LD Capitalist 316

DOB: 1/26/13 | TATTOO: 316 | REG. 17666102

LD Capitalist 316 – Proven, Predictable, Profitable and Prominent! With more than 10,000 progeny reported, 316 is siring cattle that are economically valuable, phenotypically attractive and thick made. He uniquely combines predictable calving-ease with performance and power in a soft, deep ribbed and structurally sound package. 316 daughters in production are super easy fleshing with beautiful udders and have earned an average progeny weaning ratio of 103. These sons will inject muscle, substance and shape with balanced EPDs and the look we all like!

An impressive individual to lead off this sire group and a front pasture kind of herd bull! He's a head turner that can deliver those fancy, market-topping feeder calves or a high-quality set of replacement heifers. He's captivating in the pen and on paper posting individual ratios of weaning 109, yearling 106, IMF 111, ribeye 105 and fat 111 while balancing breed leading EPDs for CED, WW, YW, Claw, Angle, CEM, \$Maternal, \$Weaning and \$Feedlot. His dam is a maternal sister to the dams of Lots 1-3, 4 and 8. Without question that's a testament to the maternal strength and cow power of our Evergreen cow family – the backbone of our program.

An exciting Capitalist son that will take your program and cow herd to new heights! He'll easily find his way on to the short list for cattlemen that demand more quality, eye appeal, muscle and maternal function in their cattle. Capitalist 9012 is definitely a Vision bull – growthy, attractive, muscular and backed by one of our most productive cow families – the Evergreen's. On paper he claims the largest ribeye EPD in the offering and balances that with impressive growth, docility, carcass weight, \$Weaning and \$Feedlot EPDs.

A really attractive, complete individual with the genetic predisposition to produce an exciting set of replacement females. You don't want extremes in your cow herd and this bull doesn't have them. He combines everything good into one really impressive package! The "Honey Bear" cows are moderate in size, fertile and hard working. The Bear females are growing in number in our cow herd and earning their keep.

Musgrave 316 Stunner

DOB: 2/19/16 | TATTOO: 1676 | REG. 18467508

Musgrave 316 Stunner was the lead off and high selling bull of Musgrave's 2017 sale. And for good reason - Stunner is phenotypically outstanding! He's proven to be a real calving-ease bull that will sire progeny with exceptional phenotype, structural soundness, added thickness and dimension in a lower birth package. Stunner progeny should carry plenty of demand with no semen available on the open market due to a breeding injury. His sons and daughters are the only way to carry forward his valuable genetics!

Rare combination of style and power in a calving-ease package that distances him from the pack! Vision Stunner 9038 is a predictable heifer bull with a stellar look, muscular top and hip with a deep sweeping rib. Did we forget to mention that he's equally impressive on paper posting individual ratios of birth 93, weaning 109, yearling 112, IMF 110 and ribeye 110 with EPDs in the Top 2% WW, 3% YW, 10% Doc, 15% Angle, 2% CEM, 4% CW, 2% \$Weaning and 10% \$Feedlot. His donor grandam blends impeccable phenotype and class with massive performance. Angel's picture accurately portrays her phenotypic excellence, production merit and superb udder quality that quickly propelled her to our donor program. Her daughters, the dams of Lot 12 and 70, are exceptional females that have captured the attention of all ranch visitors.

Want the super fancy look of quality in your next set of calves? Without question, Lot 15 will deliver! These Stunner sons are truly good-looking cattle that are sound and moderate with more muscular shape and expression. Eliminate calving risk in your heifers with Lot 15 while keeping mature cow size in check.

Mill Brae Five Star 5045

DOB: 1/20/15 | TATTOO: 5045 | REG. 18265275

★★★★★

Five Star genetics are for cattlemen who appreciate good looking cattle with *Excellent Growth, *Enhanced Carcass Value, *Maternal Function, *Docility and *Newborn Vigor. We purchased Five Star from Mill Brae Ranch – one of the most respected Angus operations in the country for their real-world cattle sense, stringent culling practices and maternal cow herd. Five Star was the high selling bull due to his impressive phenotype, performance, stoutness, docility, maternal lineage, structural and foot integrity. His genomics and first calf crop really shined providing impressive EPDs ranking in the Top 20% WW, 10% YW, 3% SC, 10% Doc, 2% Claw, 10% CW, 20% Marb, 4% RE, 4% \$Feedlot, 10% \$Grid and 2% \$Beef. These are his only sons and daughters to sell nationwide this spring. They've surpassed our expectations with moderate birth, impressive phenotype, high performance, improved foot quality and enhanced carcass merit.

Bred to exhibit more shape, muscle and total body dimension – and it shows from every angle! He's a robust, masculine herd bull that's heavy structured with a powerful hip and rear leg with added depth of body and thickness. Under low-input fall herd management, 8080 earned an impressive 82 birth ratio, 117 weaning ratio and 109 yearling ratio. Stems from the same Primrose cow family that produced N Bar Emulation EXT – now that's maternal function, longevity and stay-ability!

Weaned from a marginal recipient, 9054 has continued to gain momentum post-weaning. Genomics also confirm that he's genetically engineered to deliver increased performance, improve maternal function and add carcass value! Take note of his impressive EPD profile ranking in the Top 10% WW, 5% YW, 20% Doc, 20% Claw, 25% HP, 10% Milk, 3% CW, 25% Marb, 30% RE, 10% \$Weaning, 2% \$Feedlot, 20% \$Grid and 3% \$Beef. Don't overlook this Five Star son – he's backed by our favorite lady – Vision Lady 432.

VISION LADY 432

DONOR DAM OF LOT 25

Mark Sneed

K C F Bennett Fortress

DOB: 9/25/11 | TATTOO: Y331 | REG. 17259012

One of the most highly proven spread bulls in the Angus breed, Fortress is a \$Weaning trait leader who breeds profit into cattle at all stages of their life. His moderate birth progeny have great vigor at birth and grow exceptionally well. Fortress sons are definitely three-dimensional, easy fleshing and fast gaining. The first Fortress daughters in production are deep bodied, broody females with nice udder design.

Genetics for high growth with reduced mature frame size - a unique combination that's in demand. His impressive EPD spread from birth to yearling with a low mature height EPD enables this Cartwright son to deliver extra pounds without increasing mature cow size. You'll appreciate the balance he offers in the pen and on paper. He's the prime example of a herd bull that can deliver all the economic important traits and he's backed by one of our favorite cow families - the "Honey Bears". His grandam, our foundation Honey Bear, boasts impressive progeny ratios of birth 4@99, weaning 4@110, yearling 3@107, IMF 4@107 and fat 4@108.

Vision Emperial 6003

DOB: 1/6/16 | TATTOO: 6003 | REG. 18653296

Our \$15,000 top selling bull in 2017 selected by Scott Morris, Sunset Angus Farms, Balko, OK and one of the more exciting young sires we've developed and used to date. Emperial's progeny have recorded impressive ratios of 100 BW, 101 WW, 101 YW, 104 SC, 103 REA and 107 Fat further substantiating his curve-bending EPD profile! Emperial delivers the stoutness, rib shape and docility we want. His calves come easy with lots of vigor and soon become stout and fancy. Emperial's dam and her full sister are identical with massive center body, feminine head and neck and perfect udders.

Vision Emperial 9022 represents the Vision Angus program and our approach to breeding cattle which balances selection traits important to our customers without chasing extremes. Definitely a herd-building sire with real world performance and maternal function in an athletic, high quality, calving-ease package. His dam is a ranch favorite with a double shot of maternal strength! 1) She's an Evergreen – the backbone of our cow herd and 2) she's a phenomenal daughter of Moore 902-Focus 008 who records 22 daughters producing in three herds with an average weaning ratio of 103. 9022 comes highly recommended with a 94 birth ratio, 105 weaning ratio, 100 yearling ratio and 109 ribeye ratio. His dam boasts progeny ratios of birth 2@79, weaning 2@108, yearling 2@105, IMF 2@106, ribeye 2@107 and fat 2@121. We believe elite herd bulls come from great cows!

A more moderate-framed, good-footed Emperial son that's an ideal choice for low-input production systems. His Density dam is a long bodied, stout featured female that can forage and thrive in any environment.

KR Casino 6243

DOB: 1/27/16 | TATTOO: 6243 | REG. 18624063

Total outcross genetics for Vision Angus customers. Casino is admired by many for his impressive eye-appeal, balance and natural dimension. His extra length, extension and natural body width will contribute more total pounds weaned and gain-ability post-weaning – all generating a greater return on your investment. Casino has the bred-in ability and quality to produce practical, eye-appealing cattle that will work in many western and sandhills environments.

Here's one you don't want to miss Monday, March 2nd! Lot 49 is a true power bull for cattlemen that demand more quality and eye appeal in their cattle. He's a head turner that can deliver those fancy, market-topping feeder calves or a high-quality set of replacement heifers. Their donor dam blended impeccable phenotype and class with massive performance. Two full sisters to Lots 49 & 50 sold last fall for \$9,500 and \$7,500. Their grandam is a performance powerhouse recording progeny ratios of weaning 4@112, yearling 4@110 and ribeye 8@105. It was unfortunate that Lot 50 was raised by a marginal recipient which short changed his actual performance.

Fits the bill of a reliable heifer bull - genetically and phenotypically! He is perfect for an older cattleman or cattlemaster - he's very docile and so easy to work with. Definitely count on smaller, smooth made calves at birth.

The \$20,000 top selling bull of our 2018 sale selected by Frank Cattle Co., Chuck & Jerry Ardisson, Don Dugan and Mike Kehler. We believe Overdrive has the potential to rival Unanimous as a "Quality" breeding bull. Overdrive represents 7 generations of predictable and proven calving-ease genetics without sacrificing performance, natural thickness, volume and structural integrity! His calves consistently come early and easy with exceptional vigor and an impressive look. His first daughters in the replacement pen are nothing short of outstanding. Cattlemen who used him AI last year are already calling for more semen. Featured at ORIgen.

Genomically – the heifer bull genes didn't click on this mating (even with an 82 lb birth weight), but the other economically important genetics did! Breed leading growth, docility, heifer pregnancy, carcass weight and dollar value EPDs are bred into this stylish, high quality bull that represents our balanced breeding program with an Overdrive x Unanimous pedigree. Don't overlook one of the youngest bulls in our offering. There's a lot of good represented here! Grandam records progeny ratios of weaning 4@112, yearling 4@110 and ribeye 8@105.

Overdrive delivers predictability at calving time – shorter gestation with lighter birth weights! You can expect this Overdrive son to do the same. You can also expect superior fertility, maternal function and longevity. His dam is a full sister to the dam of Vision Imperial 6003 and records a 363-day calving interval on 3 calves with an average birth ratio of 100. His grandam boasts progeny ratios of birth 9@96, weaning 9@100, IMF 4@101, RE 4@100 and fat 4@105 with a 364-day calving interval.

A moderate Ten Speed son with a balanced EPD profile. His dam is another impressive Moore 902-Focus 008 daughter that records progeny ratios of weaning 3@102, yearling 3@100 and IMF 2@112.

SAV Pattern 6926

DOB: 1/23/16 | TATTOO: 6926 | REG. 18578992

Establish a "Pattern" for a great cow herd! EPDs don't make great cows – studying history, good bloodlines and proper selection do. We selected Pattern in the 2017 SAV sale for his maternal bloodlines that have been a mainstay in the Angus breed. Traveler 8180 wraps four times through his pedigree along with Final Answer, 004, EXT and Net Worth. Pattern's dam is an impressive, powerful, high volume cow with tremendous thickness, three-dimensional mass and fleshing ability. His daughters are the cowman's kind – attractive and growthy with a bold, maternal rib shape. Pattern is an impressive, athletic, functional and sound herd bull whose progeny exhibit nice calf shape with added performance, growth and increased marbling genetics.

Definitely a sale feature! In fact, very few seedstock breeders would even consider offering a heifer of this genetic and phenotypic caliber. Her genomically-enhanced EPDs are balanced across the board ranking her among the Top 25% WW, 10% YW, 15% SC, 30% Doc, 25% HP, 25% CW, 10% RE, 2% \$Feedlot and 10% \$Beef. She's all about Quality!

An exceptional breeding piece with tremendous maternal value and function. Her donor dam is one of our favorites recording progeny ratios of weaning 5@104, yearling 4@102 and IMF 6@101. The first Fortress daughters in production are deep bodied, broody females with nice udder design. Full sister to Lot 30.

A lot of real-world value represented in this Basin Rainmaker 4404 daughter. Phenotypically, you'd take 100 that look just like her – attractive, moderate and sound with a soft, maternal rib shape. Cattlemen have always trusted their eye to breed great livestock and make them better one generation at a time.

The \$20,000 top selling bull of our 2018 sale selected by Frank Cattle Co., Chuck & Jerry Ardisson, Don Dugan and Mike Kehler. We believe Overdrive has the potential to rival Unanimous as a "Quality" breeding bull. Overdrive represents 7 generations of predictable and proven calving-ease genetics without sacrificing performance, natural thickness, volume and structural integrity! His calves consistently come early and easy with exceptional vigor and an impressive look. His first daughters in the replacement pen are nothing short of outstanding. Cattlemen who used him AI last year are already calling for more semen. Featured at ORIgen.

Now through April 15th Special Pricing for Semen Purchased Through The Owners

\$18/unit on orders of 20 units or more • \$15/unit on orders of 50 units or more • \$12/unit on orders of 100 units or more

Shipping costs are the responsibility of the buyer. We will also do our best to accommodate delivery/pick-up of orders in surrounding states.

Contact Brent or Tina Vieselmeyer at 970-520-9006 or 9012 to place your order

Semen will be available sale day – Monday, March 2nd – Bring Your Semen Tank

With Each Vision Angus Heifer Purchased – Receive 2 Units Free!
